

FILTER

AIRLESS

Airless Filter – Gun filter

Number of meshes	180	100	50	30
Mesh size (mm)	0,084	0,14	0,31	0,56
Material	Acrylic resin varnishes Alkyd resin lacquers Weather protection	Rust protection paints Filler Primers	Dispersions Latex paints Roof coating	Fire protection Corrosion protection Bitumen
	extremely fine	fine	medium	coars

Airless Filter – High pressure filter for HeavyCoat

High pressure filter housing integrated in all HC

Number of meshes	100	50	5 + Ball	0 + Ball	
Material	Acrylic varnishes Alkyd lacquers Weather protection	Rust protection Filler Primers	Spray putty Bitumen	Spray putty Bitumen	Filter bracket (pressure spring) for 50 and 100 meshes
 	fine	medium	coars	extremly coars	

Airless Filter – High pressure filter for ProSpray

High pressure filter housing integrated in all PS (not PS 20)

Number of meshes	100	60	30	
Material	Lacquer glaze	Dispersion Latex	Filler Rust protection paints High viscosity	Filter support (pressure spring) for 50 and 100 meshes
	fine	medium	coars	

Airless Filter – High pressure filter all other airless systems

			
100	60	30	
Lacquer Glaze	Dipersion Latex	Filler Rust protection paints High viscosity	Filter support (pressure spring) for 50 and 100 meshes
fine	medium	coars	

Airless filters – Additional filters

Various suction filters

Metex weir incl. filter bag lacquer (white) and dispersion (yellow)

Sieve and filter disc (inside) for 5L hopper
